

# PROMISING CANDIDATES

Are you looking for a **life changing career opportunity**? Seeking an employer that will **value and recognise** your skills and strengths? Promising Potential hope to facilitate life-changing opportunity for high quality candidates and companies through values-aligned and durable placements **across Australia.**

**Occupational rehabilitation** is for those passionate about work; work being key in rehabilitation, health and well-being.

Occupational Therapists, Physiotherapists, Social Workers, Psychologists, Exercise Physiologists or Rehabilitation Counsellors can facilitate in aiding a person's **safe and durable return to work** in line with their psychological / functional capacity, where they have sustained **psychological / physical** injury.

Occupational rehabilitation is **challenging, rewarding and skill-developing** for those passionate about helping people return to life, society and employment.

**Applicants well suited** have refined verbal and written communication, present confidently, have effective time management and are able to influence others with their clinical knowledge / expertise and passion for the health benefits of good work.

If this describes you, please get in touch with Promising Potential via phone / email so we can **partner with you** in finding an employer where you will resonate with their team, values and purpose, allowing for a **long-lasting and engaging profession.**
